Arthrospira Plus
Pure Life Food

Pure Life Food for a Healthy Body

Immune Compromised Individuals

Immunity refers to the body's ability to keep illness away.

If you have a strong immune system, then your body is able to keep itself healthy by fighting illness.

Therefore, a compromised immune system means a body that does not have good immunity – a body that does not have the ability to defend against illness or medical challenges. Such as those living with the HIV / AIDS virus, those suffering from TB, Cancer, Chemo Therapy & Radiation Sickness, people suffering from Vitamin / Protein deficiencies, adults and children suffering from Kwashikor, individuals that are Obese, and Diabetic Type 1 & 2 and other chronic illness.

ARTHROSPIRA PLUS Superfood is the worlds most advanced nutritional whole food supplement made from extruded sorghum and human grade Algae – Spirulina (Scientific name: Arthrospira platensis).

It is suitable for all age groups. ARTHROSPIRA PLUS contains the most powerful combination of nutrients ever discovered with all the different vitamins and a perfectly balanced combination, having all eight essential amino acids, 10 of the 12 non-essential amino acids, chlorophyll, enzymes, anti-oxidants, phytonutrients, minerals and trace elements.

It is not a medication, but rather an advanced nutritional supplement that has many health benefits of which no other known food source can equal gram for gram.

Arthrospira Plus
Pure Life Food

How is Arthrospira Plus different from other products on the market?

Other nutritious food possesses different properties for nourishment, whereby some of them must be consumed under the supervision of the physician or in limited quantity to prevent some side effects, which could occur as these products are fortified with synthetic nutrients. Arthrospira Plus is completely natural, sorghum fortified with Spirulina, a super food that is natural and consumable without any side effect.

Increase your CD4 count with Arthrospira Plus

Arthrospira Plus has been developed to be taken as a supplement by people who are currently NOT taking ARV therapy. It will help to maintain and raise your CD4 count, support your immune system and give you more energy.

Do not stop taking your ARV'S! Arthrospira Plus is designed to supplement your current therapy. It will help to raise your CD4 count, support your immune system, detox the body from the effects of the drugs and give you more energy.

Positive effects of Arthrospira Plus on the human body

- A positive effect on immune compromised people
- Balances the body's metabolism
- Builds healthy lactobacillus (these are "friendly" bacteria that normally live in our digestive, urinary, and genital systems without causing disease.)
- Cholesterol reduction
- Increases vitality and stamina
- Iron bio availability and correction of anemia
- Liver detoxification
- Malnutrition recovery
- Modulating the immune system
- Natural beta carotene and cancer prevention
- Positive effects for diabetes and hypertension
- Reduces effects of radiation treatment
- Reduces kidney toxicity from mercury and drugs
- Wound healing
